Training Course on Oral Presentation of Scientific Research Findings
Date: July 03- 04, 2024
Venue: Sasakawa Seminar Room-1, icddr,b

Introduction

Oral presentations are typically used to kick off a discussion of a topic or a research work. To elicit an effective discussion, oral presentation should be focused, concise, and interesting. The main objective of an oral presentation is to confidently communicate the topic material in front of a live audience.

Learning objectives: At the end of the training you will learn about

- The essential points in preparing an oral presentation
- The key elements of the delivery of messages in oral presentations
- How to develop effective presentation skills
- How to make an impact on your audience with your presentation.

Training contents

- Introductions of oral presentation
- Preparing an oral presentation
- Coping with stage fright
- Delivering the presentation
- Answering audience questions
- Giving online presentations

Training facilitation

Resource persons are from icddr,b and from outsiders who have long experience will facilitate this course.

Training modality

The training will be delivered in a hybrid format. This course will be facilitated in person by experts from the icddr,b. Along with that, professor Barbara Gastel (Professor, Texas A&M University) will conduct the session via Zoom. The course will follow a participatory learning approach. These include lectures, discussions, and group work.

Target participants

Researchers, clinicians, academicians, master’s in biological/health sciences or social sciences, and interns at icddr,b are eligible for the course.

Course duration and timing
The course will be conducted for 2 days. Sessions will be conducted from 08:30 to 17:00 hours. But at times it may continue beyond this.

**Selection of participants**
In general, participants will be selected based on their pre-requisite qualifications and first come first serve basis, however, institutional and female participants will get preference. Only selected participants will be notified by email, SMS or over telephone.

**Number of participants**
It is intended to accept a maximum of 24 participants.

**Course fee and course fee submission procedure**
The course fee for the nationals is Tk. 6,000 (Taka six thousand) and internationals are USD 100.00 (USD one hundred) to cover the cost of training materials, faculty time and certificate of participation but do not include accommodation, travel, meals or any other incidental expenses. Due to COVID-19, the preferred method of payment is online using Credit or Debit Card or Mobile Banking (e.g. BKash, DBBL, MCash, MY Cash). Admission will be confirmed only when the fee is received.

**Registration and application**
All interested participants must apply for registration through online by clicking 'Apply now' button below.

**Certification**
Each participant will be awarded with a certificate only after successful completion of the course. As per the decision of Senior Leadership Team (SLT), no certificate will be issued without 100% participation.

**Last date of application: June 26, 2024**
